AGENDA

Big Multinational Event “Day of Democracy” in Slovenia,

Online, 23. and 24. March 2021

Main topics of the Event “Day of Democracy” in Slovenia, online

The main event theme of the big event in Slovenia is the state of Democracy in EU, particularly in the partner countries. Many different measurements for the state of democracy in Europe and around the world as Democracy Index (compiled by the Economist Intelligence Unit) and Global State of Democracy Indices (compiled by the International IDEA), show that democracy in Europe is declining and its promise needs revival. Indeed, the value, viability and future of democracy are more contested now than ever before in modern history, or at least since the 1930s. While the past four decades have seen a remarkable expansion of democracy throughout all regions of the world, recent years have been marked by declines in the fabric of both older and younger democracies. While the idea of democracy continues to mobilize people around the world, the practice of existing democracies has disappointed and disillusioned many citizens and democracy advocates.

Speakers will contribute to the main theme of the event by presenting best practices, research, analysis of positive/negative trends regarding the state of the democracy from their countries and spread their knowledge to all partner countries. Their speakers will address attributes and sub-attributes that are included in the measurements of the state of democracy measurements.
